👤 PROFILE

Experienced React.js Developer with approximately one year of professional experience in building scalable and interactive web applications. Proficient in React.js, JavaScript, HTML, and CSS. Seeking a position as a React.js Developer at Kira Intrilogy to utilize my skills and expertise in developing innovative web applications for the company.

💼 PROFESSIONAL EXPERIENCE

01/2023 – present

Kira Intrilogy ⤢
React.js Developer
- Created engaging web apps using React.js, enhancing user interaction and experience.
- Worked closely with diverse teams to turn design and user ideas into functional website features.
- Designed mobile-friendly interfaces that work smoothly on all devices.
- Managed app data effectively using Redux, making the code more manageable and scalable.
- Boosted app performance by finding and fixing issues, reviewing code, and implementing speed improvements.

05/2022 – 06/2022

Infolabz
React.js Intern
- Integrated APIs with React applications.
- Learned the basics of React, including components, props, and state.
- Developed my JavaScript skills and functional programming.
- Learned how to use Bootstrap to style React projects.

🎓 EDUCATION

08/2019 – 05/2023

Bachelor of Computer Engineering
Aditya Silver Oak Institute of Technology

📚 COURSES

HTML, CSS, and Javascript for Web Developers ⤢
Johns Hopkins University Coursera

JavaScript - Basics to Advanced ⤢
EdYoda Digital University, Qaifi Khan on Udemy

🧠 SKILLS

- React.js
- React Hooks
- React Redux
- Socket.io
- Next.js
- GitHub
- HTML,CSS,JavaScript

📁 PROJECTS

05/2023 – 07/2023   **starkidz** ⧉
- Created and refined contest form, enabling seamless contest setup with details such as category, age group, dates, and judges.
- Implemented user-friendly media verification tools, allowing contestants' age-proof images to be edited, rotated, and cropped.
- Developed a dynamic user dashboard for QA reviewers to monitor and manage ongoing contests efficiently.
- Facilitated contestant participation by building frontend features for media upload and application to contests.
- Integrated a convenient monthly pass purchase system, streamlining user access to multiple contests.

04/2023 – 04/2023   **Pixiebytez** ⧉
- Collaborated as a team member to develop a static website using Next.js, showcasing adaptability to new technologies.
- Successfully transformed Figma design into a responsive website, enhancing user experience across various devices.
- Gained hands-on experience in Next.js by accomplishing assigned tasks, under the guidance of senior team members.
- Contributed to the project's deployment process, learning how to publish code live and ensuring a functional online presence.
- Demonstrated a commitment to learning by using the project as an opportunity to enhance skills and grasp Next.js concepts.

02/2023 – 03/2023   **space-bet** ⧉
- Developed an interactive learning platform "Space-Bet" with UI, login, and signup functionalities.
- Designed and implemented two classic games: Multiplayer Tic Tac Toe and Rock Paper Scissors for skill enhancement.
- Enabled multiplayer engagement through room-based architecture, allowing player vs. player interactions.
- Created component opponent for Rock Paper Scissors and incorporated player vs. computer mode.
- Utilized component-based coding for efficient development and cohesive user experience.

🎸 INTERESTS

- Frontend Development
- Data Analysis
